

Alstom is present in Colombia since **1952**, the company has actively participated in developing the infrastructure of the country, through providing among others solutions for **passenger and freight** rail transport.

Alstom brings its expertise to offer **urban transport** solutions for projects such as the Bogota Metro, Regiotram, Carrera 80 of Medellin, **Modernization** of existing rolling stock and signaling systems as well as the supply of signaling for the **freight & mining** lines, among others.

## MAIN REFERENCES

### **12 STE5 trams for the Ayacucho Green Corridor Tram line in Medellin**

NTL, a subsidiary of Alstom, supplied 12 NTL STE5 Trams on tires for **the first modern tram line in Latino America**. This new transport service, in operation since March 2016, will reduce CO2 emissions by approximately **7,000t a year** and will improve **urban mobility** for over **80,000 passengers a day**.

### **Incremental train control system for FENOCO**

Alstom's **ITCS signaling** system is installed in the 225 km of the FENOCO concession freight line, increasing the operations performance of mining transport.

### **Power Supply**

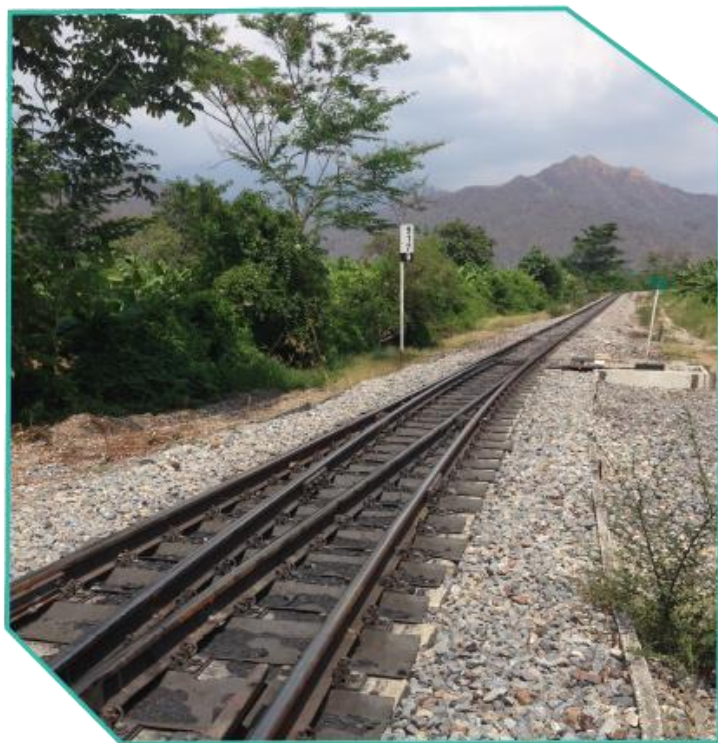

## KEY FIGURES

-  Presence in **Bogota** with a Business office to keep up the **Colombian** market opportunities
- Over **60** years contributing to Colombia's infrastructure
- 225 km** of Colombia's regional rail lines equipped with Alstom ITCS signaling system
- 12** NTL STE5 tram units in operation in Medellin
- Power Supply** Ayacucho tram in Medellin

## ONGOING PROJECTS

### POWER SUPPLY FOR AYACUCHO TRAMWAY

Alstom, as leader of the consortium, provides the **power supply** for the 4.3Km Ayacucho tramway line. Alstom's scope includes project management, **engineering, procurement, testing and commissioning** of the medium voltage network and its intake substation, and three traction substations to supply power to the electric trams.

## CORPORATE SOCIAL RESPONSIBILITY

Everywhere Alstom is located, we work with local communities and collaborate with partners on sustainable development projects focused on social development, education and environmental preservation.

Among the projects supported by the foundation this year, is the creation of a micro-library in the community of Paluato in the northern region of Colombia. The project will contribute to the development of the community by promoting education through the implementation of a library providing books and training for youths and adults.
