

ALSTOM IN POLAND

Alstom has been present in Poland in the transport sector for 20 years with a **150-year legacy** of railway manufacturing in the country.

With over 1,200 employees, **Alstom is a local employer** continuously investing in technology and skills. The company sources **40%** of components from subcontractors in Poland.

Alstom's ambition is to contribute to the development of Poland's railway system with its technology and expertise.

Alstom has been pioneer in **introducing high-speed trains** in the country with its Pendolino flagship for PKP InterCity.

ALSTOM PRESENCE

Katowice

Centre of excellence for aluminium and steel car body-shells. Engineering and manufacturing of metro, trams and regional trains. 215,000 m², incl. 64,500m² of manufacturing halls. All production phases: welding, painting, assembly, testing, dynamic test track

Warsaw

Maintenance depot for PKP Pendolino fleet. Sales office

KEY FIGURES

1,200 employees

2 main sites incl. 1 depot

20 years of Alstom presence in Poland in transport

20 Pendolino trains in service

Over **150** years of legacy in railway manufacturing

MAIN REFERENCES

TRAMS

- Warsaw trams
- 37 Citadis trams for **Istanbul** (Turkey). Project completed in 2011.

METRO

- Metropolis for **Warsaw** (Poland) - 18 six-car trainsets
- Metropolis for **Budapest** (Hungary) – 22 five-car trainsets for line 2 and 15 four-car trains for line 4. Project completed in 2013.
- Metropolis for **Amsterdam** (The Netherlands) – 28 six-car trainsets for lines 5 & 6. Project completed in 2015.
- Metropolis for **Riyadh** (Saudi Arabia) – 69 two-car trainsets for line 4 (yellow), 5 (green), 6 (purple). Duration: 2013-2018
- Metropolis for **Dubai** (UAE) – 50 five-car trainsets for EXPO 2020. Completion: December 2019.

REGIONAL DMU & EMU

- Coradia regional trains for NS in the **Netherlands** – 79 trains in 2 configurations: 8 cars (30 trains) and 5 cars (49 trains). Completion: October 2022
- Coradia Lint for Deutsche Bahn and private operators in **Germany**. Over 570 car body- shells painted and pre-fitted. On-going.

MAJOR ACHIEVEMENTS

- **Growing competences:** headcount has doubled since 2011
- From sub-components supplier to Alstom **full leading unit**
- Alstom European **Centre of Excellence for Aluminium and Steel** . Only factory in Poland with facilities enabling it to produce aluminium, steel and stainless steel car body-shells
- Focus on Project Management Organisation and Engineering since 2014. Katowice is now **part of Alstom global engineering competence centre**
