

Alstom appoints Ling Fang Senior Vice President, Asia-Pacific Region

2 July 2018 – Alstom today announced that Ling Fang has been appointed to the position of Senior Vice President (SVP) of its Asia Pacific region. In this role, Ling Fang will also become a member of Alstom’s Executive Committee, reporting to Henri Poupart-Lafarge, Alstom Chairman & CEO.

Ling Fang joined the Alstom Group in 1995 as an Auditor of Corporate Internal Audit Department in Paris, France. Since then, she has held several leadership positions in her 20-year career at Alstom, including Finance Director for China, Vice-President Finance for Asia Pacific, Vice-President Strategy and Market Development for Asia Pacific, and Managing Director for China.

She most recently served as Managing Director for China and East Asia, where she delivered exponential business growth through key breakthroughs in the green field markets of Vietnam and the Philippines, the introduction of new products such as tramways in mainland China and Taiwan, and the consolidation of Alstom’s position in all major markets.

“Demand for rail transport continues to grow year by year in the Asia Pacific region. Increased infrastructure development and government budget allocation, as well as the ongoing and upcoming projects due to its rapid urban urbanisation, has positioned the Asia Pacific region as the largest and fastest-growing market in the transportation sector,” said Ling Fang. *“Consequently, improved transport efficiency and connectivity are also fundamental to enhancing economic integration. Alstom is firmly committed to offering customers a comprehensive portfolio of its state-of-the-art transport solutions, exceptional services and a solid support network.”*

In her new role, Ling will provide further leadership and strategic direction to support the company's accelerated growth plans throughout the key Asia Pacific region, with 12 active markets covering India, Australia, China, Singapore, Indonesia, Malaysia, Thailand, Hong Kong, Vietnam, Taiwan, Korea and the Philippines.

Ling graduated from ESCP in Paris with a Master’s degree in Finance and Business Administration. She also holds a Master’s degree in International Economic Law from the University of Toulouse, and she attended the executive education programme at INSEAD, Paris.

About Alstom

As a promoter of sustainable mobility, Alstom develops and markets systems, equipment and services for the transport sector. Alstom offers a complete range of solutions (from high-speed trains to metros, tramways and e-buses), passenger solutions, customised services (maintenance, modernisation), infrastructure, signalling and digital mobility solutions. Alstom is a world leader in integrated transport systems. The company recorded sales of €8.0 billion and booked €7.2 billion of orders in the 2017/18 fiscal year. Headquartered in France, Alstom is present in over 60 countries and employs 34,500 people.
