

Alstom wins the Recognition Award in the Best French Success Story in Canada category awarded by the French Chamber of Commerce and Industry in Canada

- Every year, the French Chamber of Commerce and Industry in Canada rewards the performances of companies and entrepreneurs that have distinguished themselves in France and Canada
- Alstom won the 2024 Recognition Award in the "Best French Success Story in Canada" - Large Group category
- The 5th edition of these Awards highlighted environmental, social and governance themes, fostering a more sustainable future.

April 10, 2024 – Alstom is proud to have won the "Best French Success Story in Canada" award presented by Gowling WLG at the 2024 Recognition Award gala, held on April 4 in Montreal, organized by the French Chamber of Commerce and Industry in Canada. This distinction rewards Alstom's exceptional performances and ongoing commitment to providing sustainable and smart mobility solutions in Canada.

Out of a total of 70 applications, Alstom stood out in a year where, notably, 100% electric light rail systems entered service in Montreal and Edmonton, and a train powered by green hydrogen, provided commercial service in the Charlevoix region of Quebec for the very first time in the Americas.

"It is an honor to receive this recognition which is a testament to the culture of innovation that inhabits our teams, as well as Alstom's commitment to the Canadian community. Thanks to the French Chamber of Commerce and Industry in Canada, and to our employees, partners and suppliers for their daily commitment to providing sustainable and innovative mobility solutions that are transforming the way people travel in Canada," said Michael Keroullé.

With sites in La Pocatière, Quebec, Brampton, Kingston, and Thunder Bay in Ontario, Alstom is the only rolling stock manufacturer producing railway vehicles in Canada. Alstom has over 4,600 employees in Canada and relies on a network of more than 1,200 local suppliers. The company, with its headquarters for the Americas in St-Bruno-de-Montarville, offers its customers a wide range of public transport solutions, ranging from rolling stock to digital and intelligent mobility solutions, to the operation and maintenance of rail infrastructures. Alstom is working on long-term mobility projects in Montreal, Toronto, Edmonton, Vancouver, and Ottawa.

Present in Canada for over 80 years, Alstom is the largest private railway operator in North America. Its long-term vision charts a course towards greener and smarter mobility, with a focus on sustained growth, innovation and operational efficiency. Alstom has a green innovation center in Quebec to develop platforms with hybrid, battery, or hydrogen propulsion, with low or zero emissions.

This award qualifies Alstom for the CCI France International Awards. In Paris, these next awards will celebrate excellence in more than one hundred French and foreign companies, from more than 70 countries.

About Alstom

Alstom commits to contribute to a low carbon future by developing and promoting innovative and sustainable transportation solutions that people enjoy riding. From high-speed trains, metros, monorails, trams, to turnkey systems, services, infrastructure, signalling and digital mobility, Alstom offers its diverse customers the broadest portfolio in the industry. With its presence in 63 countries and a talent base of over 80,000 people from 175 nationalities, the company focuses its design, innovation, and project management skills to where mobility solutions are needed most. Listed in France, Alstom generated revenues of €16.5 billion for the fiscal year ending on 31 March 2023. For more information, please visit www.alstom.com.

About CCI

The French Chamber of Commerce and Industry in Canada (FCCIC) is the first Franco-Canadian business network with nearly 400 companies and over 3,000 member delegates. The mission of the French Chamber of Commerce and Industry in Canada is to support French and Canadian companies in their development between France and Canada, and to promote synergies and opportunities in the two local business environments. The FCCIC is part of the CCI France International network, a network of 119 French chambers of commerce in 94 countries, with 37,000 companies and 1,200 employees. <https://www.ccifcmtl.ca/>
