

Submission period to participate is open till 16 November

Alstom launches in Spain a new edition of its scholarship program for young graduates

Madrid, October 6th, 2020.- Alstom, in collaboration with the Universidad-Empresa Foundation, has launched in Spain the eighth edition of the Alstom Talent Energy program for recent graduates, an initiative that combines a Master Degree scholarship and professional internships at Alstom sites in Madrid and Barcelona.

This 12-month program addresses Fresh graduates in Industrial Engineering, Industrial Organization, Electrical Engineering or Business Administration, among other areas. With this initiative, young graduates will be able to combine, in a single program, post-graduate training and professional work placements.

Successful candidates will get a scholarship to join the postgraduate course "Agile Organizations and Digital Transformation" at University of Alcalá, while joining Alstom 's teams in Madrid or Barcelona, to develop national and international mobility projects.

The objective is to provide opportunities for recent graduates to continue their personal and professional development in a global company as Alstom, a world leader in the mobility sector. To date, more than 250 graduates have participated in this program in the different Alstom sites in Spain.

The submission period to participate to this edition of the program is open till 16 November. The programme itself, will start in November 23-. Those interested should apply in the following link: www.talentoteca.es/alstom

About Alstom

Leading the way to greener and smarter mobility worldwide, Alstom develops and markets integrated systems that provide the sustainable foundations for the future of transportation. Alstom offers a complete range of equipment and services, from high-speed trains, metros, trams and e-buses to integrated systems, customized services, infrastructure, signalling and digital mobility solutions. Alstom recorded sales of €8.2 billion and booked orders of €9.9 billion in the 2019/20 fiscal year. Headquartered in France, Alstom is present in over 60 countries and employs 38,900 people.

#AlstomTalentEnergy

With a long industrial and technological commitment in Spain, Alstom counts more than 2,000 employees in 18 sites in the country. The company has an industrial plant dedicated to manufacturing all types of rolling stock, and four technological and innovation centers dedicated to railway safety, signalling, smart maintenance and digital mobility. www.alstom.com

About FUE

The Fundación Universidad-Empresa (FUE) is a non-profit institution whose work is based on Deep Linking (listening, understanding and proposing) to build long-term relationships between University, Companies and society in general. Thanks to this philosophy and mission, the University-Company Foundation has been, since its creation 45 years ago, a benchmark for innovation in the fields of training, employment and entrepreneurship, always supporting the young talent.
