

Alstom signs Ferromex locomotive maintenance contract

September 22, 2022 – Alstom, a global leader in smart and sustainable mobility, signed a contract renewal to carry out preventive and corrective maintenance on 186 locomotives of the Ferrocarril Mexicano (Ferromex) fleet for a period of five years, starting immediately.

Alstom's commercial relationship with Ferromex began in 2004 and has allowed for a synergy in favour of rail mobility in Mexico. This service contract, implementing remote monitoring, consists of performing preventive and corrective maintenance on the locomotives, applying condition-based maintenance technologies, and performing predictive maintenance through vibration analysis and oil chemical analysis.

"The renewed confidence in Alstom with this additional maintenance contract reaffirms Alstom's commitment to assisting Ferromex in the optimisation of their operations with increased fleet reliability and availability for a more efficient and sustainable transportation network," said Maite Ramos Gómez, General Director at Alstom Mexico.

Ferromex operates the largest rail network in Mexico with 10,000 km of track, which covers the country's main industrial and consumer areas, and connects with the rest of the world through eight (8) ports and six (6) border crossings.

"Collaborating hand in hand with business partners such as Ferromex reinforces our work philosophy based on quality, which helps us to support the force that moves Mexico in transportation and sustainability," concluded Maite Ramos.

Maintenance work will be carried out at the Ferromex centres located in Torreón, Chihuahua and Guadalajara.

About Alstom Leading societies to a low carbon future, Alstom develops and markets mobility solutions that provide sustainable foundations for the future of transportation. From high-speed trains, metros, monorails, trams, to turnkey systems, services, infrastructure, signalling and digital mobility, Alstom offers its diverse customers the broadest portfolio in the industry. 150,000 vehicles in commercial service worldwide attest to the company's proven expertise in project management, innovation, design and technology. In 2021, the company was included in the Dow Jones Sustainability Indices, World and Europe, for the 11th consecutive time. Headquartered in France and present in 70 countries, Alstom employs more than 74,000 people. The Group posted revenues of €15.5 billion for the fiscal year ending on 31 March 2022.
