The Supplier shall be ISO/TS 22163 certified “**Railway industry standard**”, as defined in the Supplier Quality Manual or ISO 9001 or equivalent.

Supplier’s and its sub-suppliers’ and/or subcontractors’ qualification certificates must be made available to the Purchaser within forty-eight (48) hours upon request. All corrective actions rendered necessary to reach satisfactory qualification must be put in place within the time frame agreed with the Purchaser and in any case no later than 6 months upon Purchaser’s observation of non-compliance with qualification requirements.

If the Supplier is not ISO/TS 22163 certified “**Railway industry standard**”, the Purchaser retains the right to perform its own qualification for processes of Supplier and/or its sub-suppliers and/or subcontractors.

4.2.2. The Supplier shall implement an appropriate and recognized quality assurance program and quality control plan for the execution of the Goods and the performance of the Services and shall satisfy itself and the Purchaser by means of appropriate Documentation, processes, inspections, tests and other quality and risk management measures that the Goods and/or Services conform to the requirements of the Contract and shall keep such plan up-to-date throughout the whole cycle of the Goods production and delivery/Services performance. The Supplier shall perform all tests and inspections and/or provide, within forty-eight (48) hours upon request, all reports and certificates as required under the Contract and/or as the Purchaser may reasonably require. To the extent the tests are related to the Goods validation, the Supplier shall provide the Purchaser with timely notification of any such testing and the Purchaser and/or any third party authorized by the Purchaser shall be entitled to attend these tests. The Goods shall not be delivered to the Purchaser without an inspection and release by the Purchaser, unless the Purchaser waives such inspection and release. The Supplier shall cascade and be further responsible for the compliance by any of its sub-suppliers and/or subcontractors involved in the Contract performance, with the quality requirements and principles set forth in this Section 4.2.

4.2.3. All tests shall be performed in accordance with the processes defined in the technical specifications as set out in the Contract. The Supplier shall provide the Purchaser with the relevant test reports. If the test results do not comply with the technical specifications and/or performance requirements (Supplier Product Quality Development (SPQD) industry standards, etc.), the Supplier shall immediately carry out the necessary measures and repeat the tests, at its own cost (including Purchaser and Customer’s travel costs), in such a manner as to comply with technical specifications’ requirements and the deadlines stipulated in the Contract.

calculations, technical data, logic diagrams, progress reports, quality documentation, conformity certificates, test reports, bill of lading, certificates of origin, export control classification list number as per any applicable export regulation - such as the European Council Regulation 428/2009 (as amended) and/or the U.S. Export Administration Regulations ("EAR"), percentage of U.S. origin content, U.S. Export Control Classification Number ("ECCN") or U.S. Munitions List category ("USML") (if applicable), export authorizations and licenses, Harmonized Tariff Code - and any such other documents required under the Contract and/or applicable Laws) associated therewith as well as all instructions, recommendations and other indications necessary in order for them to be used correctly and under the appropriate safety conditions. The Supplier shall also furnish such plan of design, manufacture and delivery as the Purchaser may reasonably require.

If so required by the Purchaser, the Supplier shall submit any such Documentation to the Purchaser with sufficient time for review and approval by the Customer, in accordance with the timelines agreed between the Purchaser and the Customer as reflected in the Specific Purchase Conditions. Where the Documentation provided by the Supplier is not compliant with the contractual requirements, the Supplier must make the necessary modifications, and indemnify the Purchaser for any costs, liabilities or damages incurred by the Purchaser due to the delays or non-compliance in Documentation delivered by the Supplier and shall not be entitled to an adjustment of the delivery schedule.

4.3.3. Goods or Services that do not meet all the requirements set in this Article 4.3 shall be considered as having a Non-Conformity as per Article 10 of these General Conditions and may be recorded as a non-conformity event (NCE) as defined in the Supplier Quality Manual.

A lump sum administrative fee of four hundred fifty dollars (\$450) will be applied by the Purchaser for each NCE. The Parties agree that the extent of damages that would result from the processing an NCE would be uncertain in amount and difficult to ascertain. This administrative fee shall not be considered as a penalty and represents a reasonable estimate of the parties regarding the administrative work required to process the NCE; it is not the sole remedy for the Supplier's default and is without prejudice to any other remedies available to the Purchaser under the Contract or at law.

4.3.4. The Goods are intended to be integrated in complex structures, such as signalling systems, infrastructure, or vehicles like trains, tramways, or buses ("**Equipment**") realized or built for projects. The Supplier shall ensure necessary interfaces and interoperability with said Equipment.

4.3.5. If the Supplier is not certain that the results of the Services or Goods comply with the requirements defined in this Article 4.3, it shall inform immediately the Purchaser thereof in writing, providing all the needed indications concerning the risks of non-compliance and the measures that the Supplier intends to take in order to remedy the situation. The Purchaser shall notify its acceptance or rejection of the Supplier's proposals as soon as possible and in writing.

4.3.6. If the Purchaser assesses on its part that the Supplier is not performing the Services and/or supplying the Goods in accordance with the Contract, it may require the Supplier to indicate to it, in writing, the measures that the Supplier intends to take to remedy the situation. The Purchaser shall notify the Supplier in writing as soon as possible of its acceptance or rejection of the Supplier's proposals.

4.4. Records and record audits

4.4.1. The Supplier shall define and implement a method enabling it to identify the Goods as well as their status regarding the processes used throughout the Goods production phase and Services performance. The Supplier shall ensure traceability and keep records from the start of manufacturing process until the end of the warranty period as specified under Article 16.2.

4.4.2. The Supplier shall keep all Goods related data and Documentation at least for twenty (20) years after the Goods delivery or any such longer time required by applicable law. The Supplier warrants that all records to trace and evidence compliance with the Contract requirements, including EHS requirements, shall at all times be readable and available to the Purchaser and/or the Customer.

4.5. By accepting the Contract, the Supplier expressly acknowledges having received communication of all of the documents and information that it needs in order to assess the commitments that it has undertaken pursuant hereto, especially concerning the safety standards in force at the Site and any possible dangers related to installations and/or machinery nearby, whether these have been received from the Purchaser, or whether it has itself solicited them in application of its obligation as a professional to solicit all of the documents and information necessary for the correct performance of its obligations under the Contract.

No document or information obtained by the Supplier from the Purchaser in connection with the Contract shall in any way release the Supplier from its obligation to review any such document and information and independently verify the same, and furthermore to promptly notify the Purchaser of conflicts with existing data or instructions provided by the

Purchaser, and/or obtain any additional information and data from the Purchaser or from other sources, where appropriate, in order to ensure prompt and proper execution of the Goods and/or Services.

Any participation by the Purchaser in planning or designing of the Goods, in the processing of any document, information, data, material and/or software, or any review or approval of any process or data by the Purchaser, will not release the Supplier from its obligation to perform and supply the Goods and/or Services, in accordance with the terms of the Contract.

4.6. Unless different procedures are specified in the Contract, the Supplier shall send the Purchaser, a weekly activity report tracing the Goods and/or Services performed and any difficulties encountered, which shall include in particular a progress report and any non-compliance datasheets according to a format which the Purchaser shall have previously agreed to in writing.

4.7. Quality Portal

In order to facilitate collaboration and transparency with its suppliers, the Purchaser has developed a web "Supplier Quality Portal", which is the basic communication tool between Purchaser and each of its suppliers. All the Supplier's Quality data (audits, Projects, serial life performance, Concessions/Waiver) will be communicated by the Purchaser to the Supplier and made available to the latter on the Portal. Any response or communication by the Supplier related thereto shall be made directly through the Portal.

4.8. Localisation and change of manufacturing process

4.8.1. The Supplier shall not change the place of manufacturing and/or assembly of the Goods or performance of all or part of the Services without the prior written authorization from the Purchaser and further re-qualification of the Goods. In case such modification is initiated by the Supplier, it shall notify the Purchaser in writing six (6) months prior to the intended modification and, to the extent such modification impacts Purchaser's requirements under the Purchaser's agreement with the Customer, Purchaser shall be entitled to terminate the Contract pursuant to Article 22.2. The Supplier shall keep a clear traceability of the manufacturing process related to the Goods before and, if authorized, after the modification.

4.8.2. In any event, the Supplier shall ensure that the Quality Cost Delivery Technology (QCDDT) requirements shall not be modified without Purchaser's prior written consent.

4.8.3. In the event of:

- (i) a modification initiated by the Supplier as set forth under Article 4.8.3, the Supplier shall bear all associated costs incurred by the Parties and in particular all costs associated with necessary validation, qualification and type tests processes.
- (ii) a modification of localization or manufacturing process initiated by the Purchaser, the price of the Goods and/or Services may be adjusted on rates and prices specified in the Contract in order to take into account the change concerning the localization and/or manufacturing process. Should these rates and prices not be applicable, such other rates and prices shall apply as may be fair and reasonable.

5. CHANGES IN CONTRACT

5.1 The Purchaser shall have the right at any time to make changes in the design and/or the specifications of any or all of the Products or part thereof, delivery terms, scope or other provisions of the Contract, by means of a written notice to the Supplier. If in the Supplier's reasonable opinion such changes affect the cost or time required for performance of the Goods and Services or any other provision(s) of the Contract, the Supplier shall notify the Purchaser promptly in writing, but in no event later than ten (10) days after the receipt of the Purchaser's notice, including appropriate substantiation regarding the claimed impact of the change. Subject to the Supplier's notification in accordance with the foregoing, if and to the extent that the changes requested by the Purchaser reasonably warrant in the circumstances an adjustment of the price, delivery schedule and/or other provision of the Contract, then an equitable adjustment will be made by the Purchaser ("Change Order"). The Purchaser has the right to instruct the Supplier to commence the changes prior to having finalised the adjustment to the Change Order. Supplier's failure to commence performance of any Change Order, when so directed in writing by the Purchaser, whether or not all terms of the Change Order have been agreed upon, shall be deemed a material breach. In the absence of a notification by the Supplier in accordance with this Article 5.1, the Supplier shall be deemed to have waived its rights for an adjustment and shall carry out the change, and the Purchaser shall be entitled to assume that such change will not have any impact on any material term of the Contract, including time schedule, warranties and price.

5.2 The Supplier shall not make any changes to the Goods and Services or any provision of the Contract without the Purchaser's prior written consent.

Once the Supplier's design of the Goods is frozen and final, the Supplier shall not be entitled to make any change to such design thereafter without having obtained prior written agreement by the Purchaser. The Supplier shall indemnify and hold harmless the Purchaser

and the Purchaser's Customer from and against any and all claims, liabilities and expenses arising out of or in relation with any change made to the design of such Goods after the design thereof is frozen.

6. PURCHASER'S PROPERTY

6.1. Materials such as components, machinery, tools, models, moulds, jigs and fixtures, accessories or others which may be made available to the Supplier by the Purchaser for the purposes of the Contract shall be under the Supplier's responsibility, care and custody; the Supplier shall take out insurance against any damage that they might suffer and shall clearly mark them and record them as being the property of the Purchaser.

6.2. The Supplier agrees to refrain from using such materials other than for the purpose of the Contract; it shall keep them in good working order, except for normal wear and tear.

6.3. Any damage or deterioration that such materials may suffer due to improper use or negligence by the Supplier shall be repaired at its cost. Without prejudice to the other rights of the Purchaser, the Supplier shall return such materials upon first request.

6.4. Legal ownership in and/or the right to dispose of any such Purchaser items shall under no circumstances pass to the Supplier. Supplier shall, upon request of the Purchaser and without charge, execute such financing statements, security agreements, or other instruments as may be necessary to make Purchaser's title a matter of public record. Upon the Purchaser's request, and without prejudice to Purchaser's rights under the Contract, the Supplier, without delay, shall allow the Purchaser, and/or any third party mandated by the Purchaser, to enter any premises of the Supplier to repossess any such Purchaser items or any part thereof, including as applicable severing any such Purchaser items or parts thereof from other property.

6.5. Ownership of tools manufactured or acquired by the Supplier especially for the purposes of the Contract such as models, moulds, jigs and fixtures, accessories or others, shall be transferred to the Purchaser at the time of their manufacture or acquisition by the Supplier. The Supplier shall return the tools to the Purchaser by the end of the performance of the Contract at the latest.

7. DELIVERY - TRANSPORTATION – PACKAGING

7.1. Should there be no special stipulation relating thereto in the Contract, the Supplier shall, in all circumstances, use packaging suitable to the nature of the Goods and that guarantees the safety and integrity thereof until they are delivered.

7.2. Where there is no special stipulation in the Contract, (i) deliveries on the premises mentioned in the Contract shall be made "Delivered At Place" ("DAP" according to Incoterms® ICC 2020) Purchaser's destination set in the Order if the Parties are located in the same continent or geographical area or (ii) "Free Carrier" ("FCA" ICC Incoterms® 2020) Port set in the Order if the Parties are located in different continents or geographical areas, any costs to be borne by the Supplier with the Goods packed, marked, loaded, lashed and secured in accordance with the Purchaser's shipping, packing and marking instructions stated in the Contract (notwithstanding the provisions of applicable ICC Incoterms® 2020). Should the Supplier deliver the Goods in advance of the schedule without Purchaser's prior written consent, the Supplier shall reimburse the storage cost incurred by the Purchaser pending full delivery or delivery at the agreed delivery date as well as any damages or additional costs incurred by the Purchaser.

Delivery of the Goods shall not be deemed to have occurred if the Goods are not fully compliant with all the terms and conditions of the Contract, unless the Purchaser expressly agrees otherwise in writing.

7.3. Any delivery of Goods shall be accompanied by the Supplier's delivery note, dated, bearing references to the Order and indicating in particular the details of the Goods delivered, the contents of the parcels therein, their gross and net weight, method of transportation, date of dispatch, as well as the rail wagon number or vehicle registration number if relevant. The Supplier shall send simultaneously, by separate letter, a copy of the document to the Purchaser's department that issued the Order.

7.4. The Supplier shall deliver as part of the Goods the Documentation as specified under Article 4.3.2 of these GPC. Delivery of the Goods and Services shall not be deemed complete until delivery of all required Documentation has occurred in accordance with the Contract.

7.5. Upon receipt of the Goods and/or completion of the Services, the Purchaser may, at its sole discretion, inspect the same or any part thereof at that time or at any time thereafter. If the Contract includes the carrying out of tests on the Goods after its receipt by the Purchaser, then the Goods shall not be deemed complete until such tests have been passed to the satisfaction of the Purchaser.

Any approval of a test by the Purchaser, any Purchaser inspection shall in no event relieve the Supplier from any liability nor imply the Purchaser's acceptance of the Goods and/or Services.

7.6. The acceptance shall only be considered as definitive when such tests have demonstrated the compliance of the Goods and/or the result of the Services to the

requirements defined in Article 4.3. The tests report shall include the configuration of the elements being subject of the relevant test.

Where the Contract provides for an acceptance procedure in the presence of both Parties, at the end of such procedure, the Parties shall sign an acceptance certificate if they agree on the compliance of the Goods and/or result of the Services with the terms of the Contract and particularly with the requirements of Article 4.1. Such acceptance certificate shall be produced in two (2) originals.

Signature of the acceptance certificate without any reservations by the Parties shall authorize the Supplier to invoice the Purchaser under the terms of payment due on acceptance date.

The Purchaser may pronounce the acceptance of all or part of the Goods and/or the result of the Services, subject to reservations for all or part of the Goods and/or the result of the Services in question depending on the circumstances under the sole assessment of the Purchaser and if the non-compliances are revealed to be of an insignificant nature, especially if they do not affect the safety and/or use of the Goods and/or their environment. The Supplier undertakes to remedy any non-compliances revealed in the certificate within the deadline that is stipulated therein. In the case of an acceptance subject to reservations all or part of payment due upon acceptance date may be withheld by the Purchaser until it has been established by both parties that the Goods and/or Services in question have been made compliant.

7.7. Waiver Should Supplier identify or have good reasons to suspect a Non-Conformity prior to the delivery of the Goods or performance of Services that Supplier considers as minor, the Supplier shall promptly inform the Purchaser thereof and may seek a Waiver from Purchaser to deliver the Goods or Services. Any given Waiver may only cover a single type of Non-Conformity. Supplier shall, in its Waiver request, describe as precisely as feasible the Non-Conformity, its consequences, the corrective or curative measures and the planning for their implementation to be carried out by the Supplier.

Delivery by Supplier of the Non-Conforming Goods and/or Services shall be conditional upon the prior grant of the Waiver by Purchaser at its discretion. The grant of a Waiver shall be without prejudice to the Purchaser's right to have repaired/replaced the Goods delivered subject to the Waiver.

Should Purchaser grant the Waiver, it may invoice a lump sum amount of one thousand two hundred dollars (\$1,200) per Waiver as an administrative fee. The Parties agree that the extent of damages that would result from the review and granting of such Waiver would be uncertain in amount and difficult to ascertain. This administrative fee shall not be considered as a penalty and represents the parties' reasonable estimate regarding the administrative work required to review and process the Waiver; it is not the sole remedy regarding Supplier's Non-Conforming Goods and/or Services and is without prejudice to any other remedies available to the Purchaser under the Contract or at law.

The present clause is further detailed in the Supplier Quality Manual.

8. DELAY

8.1. Time is of the essence in the performance of Supplier's obligations under an Order. Supplier's deliveries must be done within the time specified in the Contract. The date(s) or deadlines for the performance of the Services and/or delivery of the Goods specified in the Contract are compulsory and shall constitute a substantial condition of the Contract.

8.2. If the delivery of the Goods and/or performance of the Services is likely to be delayed, the Supplier shall notify the Purchaser accordingly immediately in writing. The notification shall include the Supplier's proposal for acceleration of the progress to achieve the delivery date(s). Measures for expediting progress shall include the use of additional manpower and material, multiple shift and weekend work and premium means of transport (such as airfreight). The costs of the acceleration measures shall be borne by the Supplier and Supplier shall also be liable for any damages incurred by Purchaser arising out of or in connection with such delay, unless said delay is exclusively attributable to the Purchaser.

9. LIQUIDATED DAMAGES

9.1. Delay Liquidated Damages

9.1.1 If the Supplier fails to comply with the dates or deadlines for the delivery of the Goods and/or performance of the Services specified in the Contract, except for reasons exclusively attributable to the Purchaser, the latter is entitled to apply liquidated damages, without any prior notification to the Supplier, from the moment any date or deadline has been reached.

9.1.2. Unless stipulated otherwise in the Contract, the liquidated damages mentioned here above shall be calculated at the rate of five per cent (5%) of the price of the Goods or Services which delivery or performance is delayed exclusive of Value Added Tax per partial or full week's delay (the "Delay Liquidated Damages"). The aggregate limitation of liability for Delay Liquidated Damages shall be thirty per cent (30%) of the total price of the Contract exclusive of Value Added Tax. Each started week gives rise to the application of penalties for the week in question.

9.1.3. The Parties agree that the extent of damages that would result from a delay would be uncertain in amount and difficult to ascertain. The Delay Liquidated Damages shall not be considered as a penalty and represent the parties' reasonable estimate of the Purchaser's damages as a result of a delay. The Delay Liquidated Damages are not the sole remedy regarding Supplier's Non-Conforming Goods and/or Services and is without prejudice to any other remedies available to the Purchaser under the Contract or at law.

9.1.4. As soon as they are applicable, the Delay Liquidated Damages may be applied at any time, at the Purchaser's option. Liquidated damages payable pursuant to this Section 9 may be withheld by Purchaser and may be offset by Purchaser against monies due or to become due to Supplier, and if none, or if the remaining monies to become due are less than the outstanding amount of the liquidated damages, Purchaser shall invoice Supplier for the remaining amount which becomes due and Supplier shall pay such invoice upon demand.

9.2 Other liquidated damages

Other liquidated damages for performance failures (for example, regarding noise, weight, reliability unavailability for revenue service) or otherwise can be provided in the Contract depending on the nature of the Goods and or Services and Purchaser's Customer requirements.

10. NON-COMPLIANCE – REJECTION OF DELIVERY

10.1. If, when they arrive at the Purchaser's premises or any other place agreed between the Parties, the Goods and/or the result of the Services are considered as non-compliant with the Contract requirements, the Purchaser may reject all or part of them. The delivery shall then be considered as not having been made.

10.2. In this case, the Purchaser reserves the right (i) to require the Supplier to replace or repair the rejected Goods and/or the result of the Services, within the deadline provided by the Purchaser, or (ii) to perform itself or have performed the said replacement or repair by a third party of its choice, in accordance with the provisions of Article 10.3, or (iii) to retain the Goods and/or the result of the Services subject to a rebate, or (iv) to terminate the Contract in whole or in part in application of Article 22. In all cases, the totality of the costs and risks shall be borne by the Supplier.

10.3. In the case defined in Article 10.2 (ii), the Purchaser may choose to remedy the non-compliances by itself and/or to engage a third-party company of its choice for the repairing or remedying, at the Supplier's cost and risks, after an official notification to remedy the non-compliance addressed to the Supplier by registered letter with fifteen (15) days' notice has remained unfruitful. The Supplier shall provide any information and/or assistance necessary to enable the Purchaser of the third party to properly remedy the non-compliance and particularly to remit to them the tools, drawings, studies and any other documents and associated intellectual property rights necessary for the production of the Goods and/or execution of the Services.

11. VALIDATION, INSPECTION HOMOLOGATION TESTS

11.1 First Article Inspection and Type Tests

The pre-series Goods manufactured and/or assembled in the normal production conditions, i.e. with a stabilized and formalized process, will be subject to a First Article Inspection (FAI) at Supplier's factory with the attendance of Purchaser, and Customer if required.

FAI and type tests processes are defined in the Supplier Quality Manual and the SPQD Plan part of the Contract.

The authorization to deliver series Goods shall be conditional upon the First Article Inspection validation.

Performance of the FAI and validation thereof shall not relieve Supplier from its obligations under the Contract, in particular, with respect to its obligation to deliver Goods conforming with the contractual requirements.

If, for any reason attributable to Supplier, any additional trip to the initially scheduled trips is required to be made by Purchaser and Customer to attend the FAI or type tests, the additional expenses shall be reimbursed by Supplier.

11.2 First Mounting Inspection

The delivered pre-series Goods shall be subject to FMI tests aimed to define as soon as possible the procedures to detect and solve any interface issues. The FMI tests will be made on all types of the Goods by Purchaser at its premises and with the attendance of Supplier if required by Purchaser.

The FMI tests shall be carried out pursuant to the processes defined in the SPQD Plan and the technical specifications as set out in the Contract.

The FMI will include, but not be limited to, static, dynamic and integration tests.

11.3 Other tests related to the validation of the Goods by Purchaser

Supplier shall carry out tests regarding the design and performance of the Goods and tests regarding accessibility and maintainability of the Goods mounted into the Equipment on the

date of the FMI at the earliest and within three (3) months from the FMI date at the latest and/or at any point in time thereafter upon request from the Purchaser.

The aim of these tests is to demonstrate conformity of the Goods to the maintainability and accessibility requirements set out in the Contract.

11.4 Homologation and specific tests

11.4.1 Homologation and related specific tests on the Goods may be required for the homologation by the Customer of the Goods in its operating conditions. These tests will be carried out in accordance with the technical specifications as set out in the Contract.

11.4.2 If Purchaser informs Supplier that Customer has set its own homologation and/or specific test procedures, Supplier shall implement these procedures in respect of the Goods and shall provide assistance to Purchaser for the implementation by Purchaser of said procedures in respect of the Equipment, it being understood that Supplier shall provide Purchaser with all Documentation related to the Goods and/or Services required for the homologation of the Equipment.

11.5 Technical assistance during the tests

Purchaser may request Supplier to attend or take part in the First Mounting Inspection and/or test and commissioning of the Equipment, at no additional cost for Purchaser (such cost being included in the Prices).

In addition, Supplier shall provide:
